

Records identified through database search and screened (n = 504)

Excluded and duplicates removed (n = 484)

Full-text articles assessed (n = 20)

Full-text articles excluded (n = 4)

Reasons to exclude full-text articles:

- no separate data on PJI(2)
- no details on linezolid treatment(2)
- no details on microbiology
- no details on surgical management

Studies included (n = 16), reporting 372 patients
